# DESIGN SERVICES

By combining our CAD (Computer Aided Design) capabilities with our extensive knowledge and experience of the office furniture and interiors sector we are able to offer independent and impartial help with the design and planning of your new or existing reception space.

Following our initial consultation to define your objectives, we will carry out a survey to take the initial dimensions, note positions of windows, radiators, doors and columns together with any other elements we believe might be crucial in maximising the use of your floor-space.

We have three stages for designing your office space that consist of Consultation, 2D & 3D Layouts and Fully Rendered Visuals, to help determine your needs.

# 2D & 3D LAYOUTS

Subject to approval of the previous stages, we can then assist by producing fully rendered 3D views of your workspace. Now we can start adding colours to the office furniture products as well as wall and flooring finishes to allow you to view your finished office, this process allows you to make changes at the planning stage prior to the start of a project and has proved beneficial to many clients.

Following any amendments that may be required, we can then undertake to produce a 3D view showing a number of different perspective, this allows you to visualise your reception from any angle and helps to overcome many of the objections that can occur when planning a major refit or relocation.

For more information please call 0800 612 4174

## RENDERED VISUALS

Whatever the dimensions of your reception area, or the size of your budget, we can provide bespoke reception furniture solutions where it matters the most. Our reception desks can be made from a wide array of materials including functional MFC or Laminate, sleek Glass and Veneer, eye-catching Corian, minimalist Concrete, beautiful Quartz Composite and even breath-taking Natural Stone.

# Affordable Bespoke Reception Solutions

Model A-V

Model B

Whether you want a reception area that is warm and inviting, or something that is bold and austere, our design professionals can encapsulate your vision and bring it to life. Curved, straight or conical desks, at heights that work well in the space available will totally transform your reception area.

Made using only the finest materials, we can create sumptuous spaces that are durable and hard wearing. From traditional real wood through to thoroughly modern architectural finishes such as stone, glass or steel we can create to look you desire. We also work with a wide variety of man- made materials including acrylic, foil, reconstituted stone or Corian®.
